PROFESSIONAL SUMMARY

I am a passionate and dedicated mobile engineer with over 7 years of experience building high-impact mobile applications and backend-integrated solutions. Proven track record of delivering high-quality, user-friendly apps with thousands of downloads across Google Play and the Apple App Store.

I have contributed to high-profile projects for companies such as Presto, Loyalty Clubs, and Manzana Verde Inc., leveraging the Flutter framework and clean architecture principles to build scalable and maintainable codebases.

Experienced in CI/CD automation using GitHub and Codemagic, and proficient in Firebase for cloud functions, analytics, and real-time features. Additionally, I have working knowledge of backend integration using AWS services like S3, Buckets, and Lambda functions.

WORK EXPERIENCE

Mobile Engineer - AcidLabs (Remote - Santiago, Chile)

Oct 2024 - May 2025

- Led mobile development of the delivery app for Abastible.
- Planned, coordinated, and implemented critical features, resulting in a 50% increase in delivery personnel engagement.
- Reduced Firebase Crashlytics reported issues by 80%.
- Built modules for order management, client search, stock availability, and billing.

Lead Mobile Engineer - Presto Latam (Santa Cruz, Bolivia)

Oct 2022 - Sep 2024

DAVID GARCIA - MOBILE ENGINEER

- Developed the main fintech app for credit card management.
- Features included account creation, card request, balance view, and payments.
- Achieved over 10K app downloads.
- Integrated CI/CD pipeline with Codemagic and GitHub.
- Initiated backend service deployment support using AWS.

Freelance Flutter Developer - JoinReady (Remote - Chile)

Feb 2022 - Feb 2023

- Worked on e-commerce mobile apps for clients such as HEB, LaComer, and LaMarina via Vinneren.
- Built modules like product listing and checkout flow.
- Improved legacy code and applied Clean Code and SOLID principles.
- Implemented CI/CD pipelines and participated in Agile ceremonies.

Flutter Developer - Manzana Verde Inc. (Remote - Mexico)

Nov 2020 - Nov 2021

- Developed features for customer and delivery agent apps.
- Enabled order customization, real-time tracking, and efficient routing.
- Migrated architecture to Flutter BLoC pattern and implemented testing.

Freelance Mobile Developer - Sintesis (Remote - Bolivia)

Feb 2020 - Sep 2020

- Built a user-facing mobile app for service payments.
- Integrated state management using Provider.
- Focused on responsive UI and reusable components.

Software Developer - Oktana Corporation (Remote - U.S.)

Apr 2019 - Dec 2019

- Developed Salesforce-integrated apps and services using Apex.
- Collaborated with U.S.-based teams on mobile app features.
- Used Git and GitHub for version control.

Mobile Engineer - Loyalty Clubs (Santa Cruz, Bolivia)

Aug 2017 - Apr 2019

- Maintained and developed native Android and iOS apps.
- Built loyalty features including point redemption and client rewards.
- Contributed to e-commerce app development for OPAL LTDA.

Programming Assistant - Universidad Gabriel Rene Moreno

Jan 2015 - Jun 2015

- Contributed to mobile app development for postgraduate students.

EDUCATION

BSc in Systems Engineering

Universidad Gabriel Rene Moreno - 2019
