SKILLS

- React Native (CLI & Expo)
- TypeScript / JavaScript (ES6+)
- Advanced Hooks & Context API
- Redux Toolkit / Zustand
- React Navigation
- Native Modules & Platform APIs
- App Store & Google Play deployment
- Clean Architecture
- Scalable state design
- Performance optimization & render control
- Offline-first patterns
- Mobile system design
- Stripe (payments & payouts)
- Firebase (Auth, Firestore, Storage, Functions)
- REST APIs

LANGUAGES

- Spanish | Native
- English | Advanced

SUMMARY

Senior React Native Engineer with 7+ years of experience designing and delivering scalable mobile applications for startups and high-growth companies across fintech, health, and consumer platforms. Expert in TypeScript, advanced state management (Redux, Zustand, Context), and performance-driven mobile architecture. Proven track record publishing production apps to App Store and Google Play, leading cross-functional teams, and building secure, payment-enabled systems using Stripe and Firebase. Strong background in Clean Architecture, CI/CD automation, and mobile-native integrations.

EXPERIENCE

MOBILE REACT NATIVE ENGINEER – CLOUD JOVY (US, REMOTE)

Cloud Jovy. San Diego, California, United States | Jun 2025 - Dec 2025

Designed and implemented scalable lesson management system using React Native and Firebase.

Built Stripe-based payout configuration system for coaches, ensuring secure financial flows.

Integrated advanced media upload pipelines (camera roll, file picker, Google Drive).

Optimized adaptive video playback UI across iOS and Android devices.

Contributed to cross-platform architecture decisions and scalable state management patterns.

LEAD MOBILE ENGINEER – PRESTO LATAM

Presto Latam. Santa Cruz, Bolivia | Oct 2022 - Sep 2024

Led mobile engineering efforts across cross-platform applications serving 30K+ users.

Architected scalable state management systems and improved app stability and performance.

Implemented secure credit card payment flows and real-time operational modules.

Managed CI/CD pipelines to automate testing and store deployment.

Mentored junior engineers and enforced clean code and architectural best practices.

MOBILE REACT NATIVE DEVELOPER – JOINREADY (REMOTE)

JoinReady. Santiago, Chile | Feb 2022 - Feb 2023

Developed and shipped cross-platform mobile features using React Native and modern TypeScript practices.

Integrated Firebase services for authentication and real-time data synchronization.

Collaborated with design and backend teams in Agile startup environment.

MOBILE REACT NATIVE ENGINEER – MANZANA VERDE INC. (REMOTE)

Manzana Verde Inc. Mexico City, Mexico | Nov 2020 - Nov 2021

Delivered production-ready mobile modules for e-commerce and logistics applications.

Implemented performance optimizations reducing load times by 30%.

Enhanced delivery personnel app with real-time tracking and operational reliability improvements.

EDUCATION

SYSTEM ENGINEERING

Gabriel Rene Moreno University. Santa Cruz, Bolivia | - 2019
